

ENERGY AND ENVIRONMENT POLICY

At “**Royal Safe Company KB**” our mission is to provide high-quality, durable furniture solutions while maintaining a deep respect for the environment and the resources we consume. We recognize that our manufacturing activities have an impact on the planet, and we are committed to managing our energy footprint and environmental performance as a core value of our business operations. We are committed to responsible energy management as an integral part of its environmental management system. The organization shall strive to improve energy performance across all operations by adopting energy-efficient practices and promoting responsible energy use throughout the facility.

Key Commitments

To achieve our environmental and energy goals, Royal Safe Company KB commits to the following:

- **Continual Improvement:** We will not settle for the status quo. We are committed to the continual improvement of our management systems to enhance our overall environmental performance and energy efficiency.
- **Regulatory Compliance:** We pledge to comply with all relevant local, regional, and national environmental regulations. Beyond legal requirements, we will adhere to any other industry requirements or voluntary standards to which we subscribe.
- **Pollution Prevention:** We aim to minimize waste, prevent pollution, and optimize our use of energy and raw materials.

Framework for Objectives and Targets

This policy provides the formal framework for Royal Safe Company KB to set, monitor, and review our environmental objectives and targets. These targets include, but are not limited to:

- Reducing energy consumption per unit produced.
- Promote efficient use of electricity, fuel, and other energy resources in manufacturing and administrative activities.
- Encourage the use of energy-efficient machinery, lighting systems, and equipment wherever technically and economically feasible.
- Increasing the percentage of recycled or sustainable materials in our furniture.
- Minimizing landfill waste through robust recycling and reuse programs.

Public Disclosure and Stakeholder Engagement

Royal Safe believes in transparency. This policy is:

- **Documented:** Formally maintained within our management system.
- **Implemented:** Communicated to all employees to ensure they understand their role in our environmental efforts.
- **Publicly Disclosed:** Made available to all interested parties, including our customers, suppliers, local community, and regulators, via our official website and upon request at our facilities.
